Additional Material

As mentioned during the presentation, here are the short videos that were not able to be shown during the presentation.

1. The manufacturing of the materials used in ULISSE's outer shell:
    - Cellular glass (FOAMGLAS, Pittsburgh Corning Schweiz AG, thermal insulation) https://www.foamglas.com/-/media/project/foamglas/public/corporate/foamglascom/videos/fg-shortclip-twomin.mp4
    - The fibreglass textile (KLEVERS GmbH), even if for ULISSE there will no resin 'coating': https://vimeo.com/214732685?fl=pl&fe=sh
2. Technique for installing sub-lacustrine screw-in anchors (Marine Flex Ltd). https://www.dropbox.com/scl/fi/pn45k9dqiu5l52tpbt37b/0906-3.mp4?rlkey=1orltkl743hv5plk5g7elm7dx&st=ffexa443&dl=0
