

Responsibilities for Machines in PPD

Antony Wilson

MICE CM 32

Current Situation

- Current agreement with PPD was made sometime ago by Malcolm
- PPD provide support on best effort basis for the OS

Responsibilities

- Hardware
 - MICE
- OS
 - PPD Sys Admin
 - Except Centos build machine
 - MICE
- Services
 - MICE
 - Except mousehole
 - PPD Sys Admin

Hardware

- 5 physical machines
- hepInm067
 - Virtual hosting environment
- hepInm068
 - Virtual hosting environment
- hepInm069
 - ConfigDB and Redmine DB
- hepInm070
 - Jenkins build server
- hepInm071
 - CentOS build machine

Hardware Responsibilities

- Antony and Henry
- Once documentation in place extend group to include MOM (in case I'm away)
- On notification of problem call Dell / Viglen support
- Arrange callout of engineer
- Arrange access to Lab 8 in PPD

OS

- SL
 - PPD
 - By next business day on a best effort basis
- CentOS
 - Matt R.

Services

Machine	Service	Responsible Person(s)	Expected Response Time
heplnm069	configDB slave database	Antony	2 weeks
heplnm069	configDB slave web service	Antony	2 weeks
heplnm069	redmine database	Matt R.	2 weeks
heplnm070	Jenkins	MAUS Group	2 weeks
heplnm071	Centos build machine	MAUS Group	2 weeks
heplnv150	mice bastion	PPD Sys Admin	N.B.D.
heplnv151	epics gateway	Pierrick	2 weeks
heplnv152	apache	Matt R.	2 weeks
heplnv152	configDB read only web service interface	Antony	2 weeks
heplnv152	elog	Matt R.	2 weeks
heplnv152	micehall web pages	Antony	2 weeks
heplnv152	redmine software	Matt R.	2 weeks
heplnv152	redmine web service	Chris R., Chris T., Victoria, Antony	A.S.A.P.

Future Developments

- We are buying into the PPD virtual hosting environment
- Existing VMs will be migrated to new system
- MAUS nodes to be put into VMs on the new system
- PPD will be responsible for
 - the new hardware
 - the virtual hosting environment
 - SL OS installation and maintenance

Questions?

- Any questions or can we go for lunch now?
