

Session Program

18-22 May 2026

**18th Workshop on Particle Correlations and
Femtoscscopy (WPCF 2026)**

Particle production

ELTE

Tuesday 19 May

11:00

Particle production: Particle production

Session | Location: ELTE

11:00-11:25

Strange and Non-Strange Particle Production in Small, Intermediate-Size, and Heavy-Ion Systems at SPS Energies

Speaker

Antoni Marcinek

11:25-11:50

Correlations and Fluctuations in Particle Production at the LHC from the Parton Hadron String Dynamics (PHSD) model

Speakers

Dr Vitalii Ozvenchuk, Dr Vitalii Ozvenchuk

11:50-12:10

Is baryon enhancement in small systems a jet flavor effect rather than collectivity?

Speaker

Robert Vertesi

12:10-12:30

Vector meson production in proton-nucleus collisions

Speaker

György Wolf

12:30
