

Session Program

18-22 May 2026

**18th Workshop on Particle Correlations and
Femtoscscopy (WPCF 2026)**

Baryon correlations II.

ELTE

Wednesday 20 May

16:00

Baryon correlations II.: Baryon correlations II.

Session | Location: ELTE

16:00–16:25 **Femtoscopia with the Spirit TPC at RIKEN**

Speaker

Dr Yijie Wang

16:25–16:50 **Proton-proton correlations in ALICE**

Speaker

Francesca Bellini

16:50–17:10

Femtoscopia of ultraperipheral collisions: applications in hadronic interactions and nuclear structure studies

Speakers

Christopher Anson, Christopher Anson, Christopher Anson, Christopher Anson, Christopher Daniel Hanson

17:10–17:30

The analysis of neutron-neutron and proton-proton correlation function in the heavy ion experiment

Speaker

Dawei Si

17:30–17:45

Proton femtosopic source in light ion collisions with the ALICE experiment

Speaker

Sofia Tomassini

17:45
