

TWEPP-12 Closeout

Oxford, 17 – 21 September 2012

Proceedings

- Submission via the JINST site **before November 1st**
- Proceedings for all type of contributions
 - Oral & Poster
- All articles will be reviewed
 - You might be requested to do some corrections within a given time limit
 - *You might be requested to review one or more papers from others*
 - Thanks for you help
- Papers should have at most 8 pages (excluding the Title and Table of Content)
- Detailed instructions to authors available
 - on the TWEPP-12 site
 - <http://www.physics.ox.ac.uk/twepp12/>
 - on the Indico site
 - <http://indico.cern.ch/event/twepp12>
- In case of problems contact Philippe.Farthouat@cern.ch

TWEPP 2012 Topical Workshop on Electronics for Particle Physics

17-21 September 2012 *Oxford University, UK*

Welcome to Oxford

Smart Phone Application

Support

The **workshop** will cover all aspects of electronics for particle physics experiments, and accelerator instrumentation of general interest to users.

LHC experiments (and their operational experience) will remain a focus of the meeting but a strong emphasis on R&D for future experimentation will be maintained, such as SLHC, CLIC, ILC, neutrino facilities as well as other particle and astroparticle physics experiments.

The **purpose of the workshop** is :

- to present results and original concepts for electronic research and development relevant to experiments as well as accelerator and beam instrumentation at future facilities
- to review the status of electronics for the LHC experiments
- to identify and encourage common efforts for the development of electronics
- to promote information exchange and collaboration in the relevant engineering and physics communities.

Dates: from 17 September 2012 10:00 to 21 September 2012 18:00

Timezone: Europe/Zurich

Location: *Oxford University, UK*
Clarendon Laboratory
Parks Road
OX1 3PU, Oxford, United Kingdom

Chairs: Farhouat, Philippe

Additional info: Further information and news on the workshop are available at:
