

Session Program

7-11 May 2012

**Seventh CW and High Average Power RF
Workshop**

Session 8

Danfords Hotel & Marina
Port Jefferson, New York, USA

Friday 11 May

08:00

Session 8

Session | **Location:** Danfords Hotel & Marina, Port Jefferson, New York, USA | **Convener:** Morten Jensen

08:00–08:30

High Power RF Distribution with Vector Control for Multicavity Cryomodule Test

Speaker

Dr Yoon Kang

08:30–09:00

Standing Wave Issue in Waveguide Directional Coupler Calibration Process

Speaker

Dr Nikolai Schwerg

09:00–09:30

A new generation of arc detectors for the LHC and Linac4 high power RF system

Speaker

Dr Daniel Valuch

09:30–10:00

Status of the the S-band RF Power System for the FERMI@Elettra Linac

Speaker

Dr Alessandro Fabris

10:00–10:30

SRF Cryomodule Construction and Photocathode Prototyping at AES

Speaker

David Meidlinger

10:30–11:00

Coffee

11:00
