

# Implications of LHC results for TeV-scale physics

## Saturday 14 July 2012

### Other signatures of BSM physics: Flavour observables at low Q<sup>2</sup> (09:00 - 11:00)

time	[id] title	presenter
09:00	[15] Recent rare decays results from LHCb	LANFRANCHI, Gaia
09:30	[14] Status of New Physics searches with rare B decays	HURTH, Tobias
10:00	[16] Discussion	
10:30	Coffe break	

### Other signatures of BSM physics: High Q<sup>2</sup> signatures - 222/R-001 (11:00 - 13:00)

time	[id] title	presenter
11:00	[36] Recent exotics results from ATLAS	FERRANDO, James
11:30	[37] Recent exotics results from CMS	KAADZE, Ketu
12:00	[38] Discussion
