

10th International Conference on POSITION SENSITIVE DETECTORS

7th – 12th September 2014

University of Surrey, Guildford, UK

The conference explores the scientific and technical developments, and applications, of position sensitive detector systems used in:

Astronomy and space science

Astrophysics

Condensed matter studies

Industrial applications

Life sciences

Medical physics

Nuclear physics

Particle physics

Synchrotron based science

Abstract submission deadline: 1st May 2014

Invited Speakers include:

Nigel Allinson (Lincoln)

Michael Campbell (CERN)

Marcus French (STFC/RAL)

Takaki Hatsui (Spring8)

Petra Majewski (PN Sensor)

Steve McMahon (STFC/RAL)

Ed Morton (Rapiscan)

Iouri Musienko (CERN)

Hugo Palmans (NPL)

David Parker (Birmingham)

Bernd Schmidt (PSI)

International Advisory Committee

Professor Amos Breskin (Weizmann), Dr Eduardo do Couto e Silva (SLAC), Professor Roger Eccleston (Sheffield Hallam), Professor Tord Ekelof (Uppsala), Dr Heinz Graafsma (DESY), Dr Alex Grillo (UC Santa Cruz), Dr Rob Kreuger (TU Delft), Dr Ralf Menk (Elettra), Professor Vladimir Peskov (CERN), Dr Veljko Radeka (BNL), Dr Graham Smith (BNL), Professor Ken Smith (Glasgow), Professor Lothar Struder (PN Sensor), Professor Yoshinobu Unno (KEK)
