

## Update of achievable beam characteristics at injection in LHC –20+10 minutes

*Friday 30 March 2012 11:40 (30 minutes)*

- o Taking into account experience with beam until end of 2011
- o For 25 and 50 ns bunch spacing
- o Known “hard” and “soft” limits
- o Suggesting area of equivalent beam characteristics.

**Presenter:** Dr GODDARD, Brennan (CERN)

**Session Classification:** LIU talks
