

20th RD50 Workshop (Bari)

Thursday 31 May 2012

Full Detector Systems (15:30 - 18:30)

-Conveners: Gregor Kramberger

time	[id] title	presenter
15:30	[4] Laser tests of irradiated detectors at low temperatures.	Dr KODYS, Peter
15:50	[8] Comparison of the performance of irradiated n-in-p planar pixel sensors of different active thickness	MACCHIOLO, Anna
16:10	[3] Update on thin vs thick microstrip detector studies	CASSE, Gianluigi
16:30	Coffee Break	
17:00	[6] Investigation of Charge Multiplication in Silicon Strip Detectors	ALTAN, Lokman
17:20	[5] TCT measurements with strip detectors	MANDIC, Igor
17:40	[17] Progress on Scribe-Cleave-Passivate (SCP) Slim Edge Technology	FADEYEV, Vitaliy
18:00	[36] Discussion on Full Detector Systems	CASSE, Gianluigi KRAMBERGER, Gregor
