

Forthcoming top-related meetings at CERN

(See also <http://cern.ch/LPCC>)

**July 17-19 2012, following the meeting of the
“Implications of LHC data for Terascale physics” workshop**

Tools for precision and discovery physics with top quarks

17-18 July 2012 *CERN*
Europe/Zurich timezone

Search

Overview

Timetable

This workshop, organized in collaboration with [CTEQ](#) and Fermilab's [LPC](#), is dedicated to the top quark as a tool for the discovery of new physics, including a discussion of both the experimental and theoretical aspects.
