Federated identity system for scientific collaborations

Next Steps

Bob Jones

27 February 2012

Revise Paper

- Taking into account feedback and discussions from today's workshop
  - Ahigh-level vision statement, followed by a list of requirements and then a set of recommendations which identify who will do what by when

- Add key stages of the roadmap

- More feedback from people not present
  - Deadline for feedback 8th March 2012

Endorsement of paper contents

- Each community should discuss the paper and it recommendations
  - At this point we can make sure it represents "end user" point of view not only that of facility operators
- Paper to be presented at TERENA Networking Conference (TNC2012) in May 2012
  - Opportunity to get feedback from TERENA and NRENs
- Confirm endorsement of the paper at the 4th workshop
  - June 21-22 MPI Nijmegen, Netherlands

4th workshop

- Endorse paper

- Feedback on pilot projects from the different communities

- Agree how best to engage technology and service providers (commercial and public) and funding agencies

- Expand roadmap aspects
