

The 4th Asian Triangle Heavy Ion conference (ATHIC2012)

Thursday, 15 November 2012

Parallel 2B (Chair Yongseok Oh) - Joong-won (2nd) (15:30 - 16:45)

time	[id] title	presenter
15:30	[7] Direct photon production and QGP formation in pp collisions at LHC	Prof. LIU, Fu-Ming
15:55	[34] Birefringent photon spectrum from a nonlinear interaction with strong magnetic field	HATTORI, Koichi
16:20	[29] H-dibaryon properties from a QCD sum rule approach with explicit diquark fields	Dr KIM, Kyungil
