

Session Program

7 March 2012

Second Inter-Experiment Workshop on Radiation Damage in Silicon Detectors

Hot topics / novel observations

CERN, 6/2-024 - BE Auditorium Meyrin

Wednesday 7 March

16:25

Hot topics / novel observations

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin

16:25–16:45

Second metal layer charge loss in LHCb VELO

Speaker

Jon Harrison

16:45–17:00

Excess currents observed in the CMS Preshower

Speaker

Alan Honma

17:00–17:15

Depletion voltage annealing effects in ATLAS

Speaker

Andre Lukas Schorlemmer

17:15–17:30

Simulating LHC fluences for the ATLAS Inner Detector

Speakers

Ian Dawson, Dr Paul Miyagawa

17:30
