

Session Program

16-18 Oct 2007

CLIC07 Workshop

RF Structures and Sources Wkg

CERN, 500/1-001 - Main Auditorium

Thursday 18 October

08:45

RF Structures and Sources Wkg

Session | Location: CERN, AB Auditorium M

08:45–09:00 **Experimental RF Breakdown Studies**

Speaker

Jan Kovermann

09:00–09:05 **Discussion**

09:05–09:20 **Geometrical Dependence of Achievable Accelerating Gradient**

Speaker

Alexej Grudiev

09:20–09:25 **Discussion**

09:25–09:40 **DC Spark Results**

Speaker

Antoine Descoeurdes

09:40–09:45 **Discussion**

09:45–10:00 **Fatigue Review**

Speaker

Samuli Tapio Heikkinen

10:00–10:05 **Discussion**

10:05–10:20 **IAP Testing Program Toward X-Band CLIC**

Speaker

Dr Serhiy Mordyk

10:20–10:25 **Discussion**

10:25–10:45 **Coffee break**

10:45–11:00 **Structure Manufacturing, Achievements and Challenges**

Speaker

Mauro Taborelli

11:00–11:05 **Discussion**

11:05–11:20 **Fabrication of Accelerator Structures for CLIC Study**

Speaker

Toshiyasu Higo

11:20-11:25

Discussion

11:25-11:40

SLAC Activities for the CLIC Collaboration

Speaker

Dr Juwen Wang

11:40-11:45

Discussion

11:45-12:00

Plans for an X-Band Structure Test Area at CERN

Speaker

Gerard McMonagle

12:00-12:05

Discussion

12:05-12:20

Photonic Band Gap Studies

Speaker

Vittorio Vaccaro

12:20-12:25

Discussion

12:25
