## ***Opening Plenary***

Stony Brook University  
100 Nicolls Road, Stony Brook, NY 11790 USA

# Monday 1 October

09:00

## Opening Plenary

**Session** | **Location:** Stony Brook University, Wang Lecture Hall 2 | **Conveners:**  
Leszek Ropelewski, Dr Maxim TITOV

### 09:00–09:10 Opening and Welcome

#### Speakers

Klaus Dehmelt, Dr Maxim TITOV

### 09:10–09:40 RD51 Collaboration News

#### Speakers

Leszek Ropelewski, Dr Maxim TITOV

09:40–09:50

### Development of innovative resistive GEM alpha detectors for earthquakes

#### Speaker

Vladimir Peskov

09:50–10:00

### A low mass microbulk with real XY strips

#### Speaker

Theodoros Gerasis

10:00–10:10

### Thin and high-pitch laser-etched mesh manufacturing and bulking

#### Speaker

Paul Colas

10:10–10:20

### MPGDs technology laboratory for training, development, fabrication, applications and innovations in Colombia

#### Speaker

Rafael M Gutierrez

10:20–10:45

### Break

10:45–11:15

### Recent developments with Gridpix

#### Speaker

Jan Timmermans

11:15–12:00

### Detector Technologies in PHENIX at RHIC: Past Developments and Future Plans

#### Speaker

Prof. Thomas Hemmick

12:00
