

Agenda for the meeting of ILC/CLIC Joint WG for general detector issues

February 29 (Wednesday), 22:00 GMT

We wish to discuss on the LC organization in the post-2012 phase, which is under consideration in ILCSC. As it is an important matter both for ILC and CLIC, we may need to investigate in depth.

Please note that this is the first time to meet for the topics and we will first try to share knowledge.

1. Report of the ILCSC meetings in Mumbai and Oxford
(By Sakue / Juan)
2. The management/reporting/monitoring of the detector activities for ILC and CLIC
(By Sakue on ILC if needed and by Lucie on CLIC)
3. The plan of ILC detectors after the completion of DBD
(By Sakue and other members)
4. The plan of CLIC detectors after the completion of CDR
(By Lucie and other members)
5. Matters to be investigated/discussed including how to proceed
6. Discussions in each group/region
7. A.O.B.
