

7th International Workshop on High-pT Physics at LHC

High p_T Physics at LHC
Frankfurt 2012

Monday, 26 March 2012 - Thursday, 29 March 2012

Hanau

Scientific Programme

The main topics of the workshop are:

Nuclear modifications of the parton distribution functions

High pT jet production in pp, pA and AA

High pT parton propagation in matter

Nuclear modifications of the fragmentation functions

Correlations with leading particles

Jets, direct photon and heavy flavor tagging
