

Session Program

12-18 Aug 2012

Quark Matter 2012

Parallel 1B, Jets (Chair X.N. Wang)

Tuesday 14 August

14:15

Parallel 1B, Jets (Chair X.N. Wang)

Session | Location: Palladian

14:15-14:35

Study of jet quenching using photon-jet events in PbPb collisions at 2.76 TeV with CMS

Speaker

Yue Shi Lai

14:35-14:55

Study of correlations between neutral bosons and jets in lead-lead collisions at 2.76 TeV with the ATLAS detector

Speaker

Zvi Citron

14:55-15:15

Prompt Photon Production and Photon-Jet Hadron Correlations in PHENIX at RHIC

Speaker

Justin Edward Frantz

15:15-15:35

Correlation between isolated photons and charged hadrons in pp and Pb-Pb collisions measured with ALICE

Speaker

Nicolas Arbor

15:35-15:55

Electroweak boson-tagged jet event asymmetries at the Large Hadron Collider

Speaker

Dr Ivan Vitev

16:15
