H. Bojahr, A. Holten, S. Schecker

First meeting of local committee on August 2, 2012, work has started!

Darmstadt

A place of exchange for science and technology

Darmstadt is one of the most important technology centres in Germany and is often thought of as the country's secret software capital. It is also one of the headquarters for the European space programme.

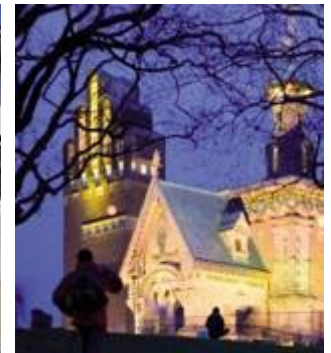

Darmstadt's renowned Technical University was the first autonomous university in the Federal Republic.

World-famous research institutes and major global companies, such as Merck KGaA, Deutsche Telekom AG, GSI, Software AG, ESA, EUMETSAT, Wella etc., are based in Darmstadt and provide a climate where research and the pioneering spirit flourish.

Darmstadt

Darmstadt is...Science Meetings and Conventions

With a population of approximately 140,000, Darmstadt is a city without skyscrapers, urban motorways or wide office and administrative complexes.

the conference venue „darmstadtium” is reserved for QM2014

The darmstadtium wissenschaft | kongresse (science | congresses) is a modern convention centre in the center of town of Darmstadt

The congress centre is easy to get to: it lies at the heart of Darmstadt, just a few steps from the pedestrian zone of the city centre and in direct vicinity of the Technical University

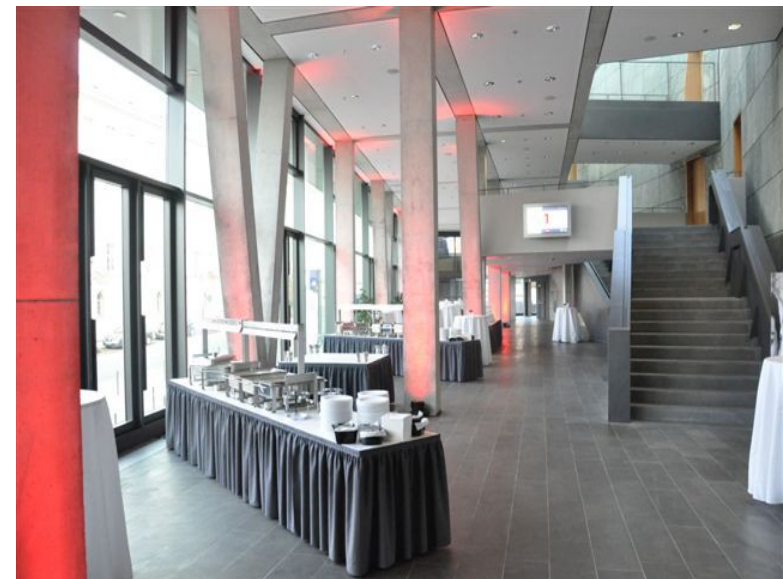

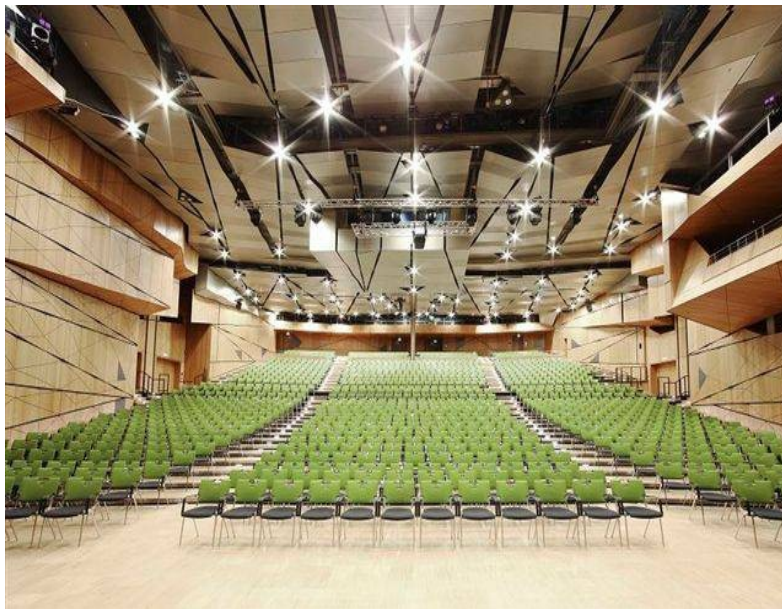

Total area:

18,000 m², with access and facilities for persons with disability and underground parking garage

„darmstadtium“

Rooms for Quarkmatter 2014
