

## Session Program

12-18 Aug 2012

## Quark Matter 2012

***Parallel 7D: Correlations & Fluctuations (Chair B. Wosiek)***

# Friday 17 August

16:30

## Parallel 7D: Correlations & Fluctuations (Chair B. Wosiek)

Session | Location: Diplomat

16:30–16:50

**Forward/backward, reaction-plane dependent J/psi production and hadron  $v_n$  in Cu+Au collisions in PHENIX**

**Speaker**

Dr Richard Hollis

16:50–17:10

**Measurement of event plane correlations in Pb-Pb collisions with the ATLAS detector**

**Speaker**

Soumya Mohapatra

17:10–17:30

**Anisotropic flow measured from multi-particle azimuthal correlations for Pb-Pb collisions at 2.76 TeV by ALICE at the LHC**

**Speaker**

Ante Bilandzic

17:30–17:50

**Studies of higher-order flow harmonics and factorization of dihadron correlations in PbPb collisions at 2.76 TeV with CMS**

**Speaker**

Shengquan Tu

17:50–18:10

**Pseudorapidity dependence of the anisotropic flow with ALICE at the LHC**

**Speaker**

Alexander Hansen

18:10
