

Session Program

12-18 Aug 2012

Quark Matter 2012

Parallel 7B: Exploring the QCD Phase Diagram (Chair H. Huang)

Friday 17 August

16:30

Parallel 7B: Exploring the QCD Phase Diagram (Chair H. Huang)

Session | Location: Regency 2/3

16:30-16:50

The RHIC Beam Energy Scan Program: Results from the PHENIX Experiment

Speaker

Jeffery Mitchell

16:50-17:10

Beam energy and centrality dependence of the statistical moments of the net-charge multiplicity distribution in Au+Au collisions at STAR

Speaker

Daniel McDonald

17:10-17:30

Baryon number conservation and cumulants of net proton distribution

Speaker

Adam Bzdak

17:30-17:50

Search for the QCD Critical Point by Higher Moments of Net-proton Multiplicity Distributions at STAR

Speaker

Dr Xiaofeng Luo

17:50-18:10

Report from NA49 and NA61/SHINE at the CERN SPS

Speaker

Anar Rustamov

18:10
