

8th International Workshop on High p_T Physics at LHC 2012

Saturday, October 20, 2012 - Wednesday, October 24, 2012

Wuhan, China

Scientific Program

Topics to be covered:

High Pt jet production in pp, pA and AA collisions

Medium modification of jet shapes and fragmentation functions

Multiple parton scattering in nuclei and hot matter

Initial partonic states in heavy nuclei

Direct photon and heavy quark production

High Pt particle correlations

Medium response to propagating jets
