RERO DOC: particularities

- ▶ A lot of institutions
- ▶ A lot of collections
- ▶ Periodicals, newspapers (one bibliographic reference, thousand of full-text files)
- ▶ A mix of scientific and patrimonial content
- ▶ Home developments:
 - ◆ submission module (to be upgraded)
 - ◆ full-text server (migration back to Invenio is planed)
 - ◆ document viewer (<http://www.multivio.org>)
 - ◆ URN persistent identifier assignment

Invenio: thumbs up / down

▶ We like: 👍

- ◆ python based
- ◆ open source
- ◆ nice guys
- ◆ fast and robust
- ◆ powerful search
- ◆ covers most of our needs

▶ We don't like: 👎

- ◆ submission interface module
- ◆ frontend appearance difficult to customize
- ◆ sometimes too specific to CERN's needs
- ◆ documentation is scattered

Workshop Expectations

- ▶ Speed up our future migration to 1.0
- ▶ Discover new features or interesting modules available in the new release
- ▶ Help to make our customizations cleaner
- ▶ Meet other people that uses this nice tool
