1st Invenio User Group Workshop

7 - 9 May 2012

From our stay

- We plan to use Invenio to build a portal for all African dissertations. We need a system which can harvest data from various existing platforms, then convert the bibliographic records and make them available at one central point
- We are building up the expertise to digitize unique historical records and documents to preserve them and make them available to researchers
- ...

1st Invenio User Group Workshop

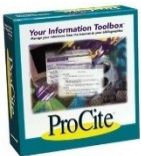

7 - 9 May 2012

- MAIN EXPECTATION

Invenio Software is installed, is working but we have to find optimized ways to make the exports - imports with no record loss

greenstone digital library software

1st Invenio User Group Workshop

7 - 9 May 2012

THANK YOU
