## **Search for Quarks and Gluinos in events with missing transverse momentum**

*Tuesday 23 April 2013 18:10 (20 minutes)*

In this talk, the latest results from CMS on inclusive searches for squark and gluino production at the LHC are reviewed, including third generation signatures. A variety of complementary final state signatures and methods are presented using up to 20/fb of data from the 8 TeV LHC run of 2012.
