Precision Multiboson Phenomenology

Wednesday 24 April 2013 08:50 (20 minutes)

We present recent results in precision multiboson (+jet) phenomenology at the LHC. Results for diboson (+ jet) and triboson (+jet) will be discussed focusing on the impact of the perturbative corrections on the expected phenomenology.

Author: CAMPANARIO, Francisco (IFIC- University of Valencia)

Co-authors: Mr ENGLERT, Christoph (University of Durham); ZEPPENFELD, Dieter (KIT - Karlsruhe Institute of Technology (DE)); Dr BOZZI, Giuseppe (Università degli Studi di Milano); RAUCH, Michael (Univ. Karlsruhe, KIT); SPANNOWSKY, Michael (Durham University); SAPETA, Sebastian (Durham University)

Presenter: CAMPANARIO, Francisco (IFIC- University of Valencia)

Session Classification: WG4: QCD and HFS

Track Classification: QCD and Hadronic Final States
