

XXI International Workshop on Deep-Inelastic Scattering and Related Subjects

Contribution ID: 237

Type: **Talk in Parallel Session at DIS2013**

Heavy quark impact factor and the single bottom production at the LHC

Tuesday 23 April 2013 16:30 (20 minutes)

We use the heavy quark impact factor at NLO order and multi-regge kinematic regime to calculate of single bottom production cross section at large rapidity at LHC energies.

Authors: RODRIGO, German (CSIC); CHACHAMIS, Grigoris (Paul Scherrer Institut); Mr DEAK, Michal (IFIC/CSIC, Universitat de Valencia)

Presenter: Mr DEAK, Michal (IFIC/CSIC, Universitat de Valencia)

Session Classification: WG2: Low x and Diffraction

Track Classification: Small-x, Diffraction and Vector Mesons
