

## **Session Program**

**22-26 Apr 2013**

# **XXI International Workshop on Deep-Inelastic Scattering and Related Subjects**

## ***WG1/7: Structure Functions and Future Experiments***

Marseille, Parc Chanot, Palais des Congrès  
Rond Point du Prado 13006 Marseille, France

## Tuesday 23 April

16:30

### WG1/7: Structure Functions and Future Experiments: PDF updates, nuclear PDFs

**Session** | **Location:** Palais des Congrès, Callelongue | **Conveners:**

Franck Sabatié, Katerina Lipka, Cynthia Keppel, Prof. Pavel Nadolsky, Nestor Armesto Perez, Dr Armen Buniatyan

16:30-16:54

#### Theoretical foundations of the quantum statistical approach to parton distributions and recent results

**Speaker**

Prof. Jacques SOFFER

16:54-17:18

#### Neutrino-nucleus DIS data and their consistency with nuclear PDFs

**Speaker**

Dr Hannu Paukkunen

17:18-17:42

#### The nCTEQ PDFs

**Speaker**

Karol Kovarik

17:42-18:06

#### Investigating the Nucleon Structure at COMPASS

**Speaker**

Prof. Barbara Badelek

18:06-18:30

#### Nuclear PDFs from the LHeC perspective

**Speaker**

Dr Hannu Paukkunen

18:30
