

## **Session Program**

**13-15 Jun 2012**

### **RD51 mini week**

#### ***WG2 - Physics issues***

CERN, 216/R-401 - Salle polyvalente PUMP HALL

# Thursday 14 June

14:00

## WG2 - Physics issues

**Session** | **Location:** CERN, 216/R-401 - Salle polyvalente PUMP HALL | **Conveners:**  
Maximilien Chefdeville, Harry Van Der Graaf

### 14:00-14:20 Update on Micromegas for DHCaI

**Speaker**

Maximilien Chefdeville

### 14:20-14:40 Update on the production of GridPix detectors

**Speaker**

Frederik Hartjes

### 14:40-15:00 Progress of using Gridpix at Darwin

**Speaker**

Frederik Hartjes

### 15:00-15:20 THGEM studies

**Speaker**

Shikma Bressler

### 15:20-15:40 Coffee break

### 15:40-16:00 Spark probability measurement for GEM for CBM

**Speaker**

Saikat Biswas

### 16:00-16:20

### Ageing studies in micromegas detectors based on resistive technology

**Speaker**

Javier Galan Lacarra

### 16:20-16:40 Resistive Micromegas under Magnetic Field

**Speaker**

George Iakovidis

18:00
