

Session Program

13-15 Jun 2012

RD51 mini week

WG6 - Production

CERN, 216/R-401 - Salle polyvalente PUMP HALL

Friday 15 June

10:00

WG6 - Production

Session | **Location:** CERN, 216/R-401 - Salle polyvalente PUMP HALL | **Conveners:**
Ioanis Giomataris, Rui De Oliveira, Fabio Formenti

10:00-10:15 **News from industrialization and recent MPGD-related activities**

Speaker

Fabio Formenti

10:15-10:30

30x30 cm² GEM prototyping at NewFlex and test bench installation at KODEL

Speakers

Sung-Keun Park, Sung.Keun Park, sung park

10:30-11:00

Spark studies in gas detectors

Speakers

Cosimo Cantini, Rui De Oliveira

11:00-11:20

Test results of THGEMs produced by Print Electronics

Speaker

Shikma Bressler

11:20-11:35

Production issues of THGEMs at Eltos

Speakers

Dr Fulvio Tessarotto, Fulvio Tessarotto

11:35-11:50

Resistive bulk prototyping at Eltos

Speaker

Pascal Lequerre

11:50-12:05

Resistive bulk prototyping at Cirea

Speaker

Michel Billant

12:05-12:15

Status of license agreement for Micromegas

Speaker

Hartmut Hillemanns

13:00
