

## **Session Program**

**27-29 Jun 2007**

## **8th International Conference on Large Scale Applications and Radiation Hardness of Semiconductor Detectors (RD07)**

### ***Day 1 - Afternoon session***

Florence, Italy, Sala Convegni della Cassa di Risparmio di Firenze  
Via F. Portinari, 5

# Wednesday 27 June

15:00

## Day 1 - Afternoon session

**Session** | **Location:** Florence, Italy, Sala Convegni della Cassa di Risparmio di Firenze, Via F. Portinari, 5

15:00–15:25

### Alignment of the ATLAS inner detector

**Speaker**

Anthony Morley

15:25–15:50

### Alignment Strategy for the CMS Silicon Tracker

**Speaker**

Marco Rovere

15:50–16:15

### Track reconstruction of cosmic ray real data with the CMS tracker

**Speaker**

Piergiulio Lenzi

16:15–16:40

### The ATLAS Beam Conditions Monitor

**Speaker**

Harris Kagan

16:40–17:05

### SLHC: the LHC luminosity upgrade

**Speaker**

Alessia Tricomi

17:05–17:30

### Status of RD50

**Speaker**

David Menichelli

17:30–17:55

### Short p-Type Silicon Microstrip Detectors in 3D-stc technology

**Speaker**

Simon Heiko Eckert

17:55–18:20

### Upgrade of the CMS Silicon Tracker for SLHC

**Speaker**

Donato Creanza

18:20–19:00

### Welcome cocktail

19:00
