

## **Session Program**

**27-29 Jun 2007**

# **8th International Conference on Large Scale Applications and Radiation Hardness of Semiconductor Detectors (RD07)**

## ***Day 1 - Morning Session***

Florence, Italy, Sala Convegni della Cassa di Risparmio di Firenze  
Via F. Portinari, 5

# Wednesday 27 June

09:00

## Day 1 - Morning Session

**Session** | **Location:** Florence, Italy, Sala Convegni della Cassa di Risparmio di Firenze, Via F. Portinari, 5

09:00–10:00 **Registration**

10:00–10:25

### SemiConductor Tracker final integration and commissioning in the Atlas detector

**Speaker**

Andrée Robichaud-Véronneau

10:25–10:50

### The construction of the CMS Inner Barrel Silicon Tracker

**Speaker**

Dr Andrea Venturi

10:50–11:15

### Results on CMS Tracker Outer Barrel Integration

**Speaker**

Christoph Bloch

11:15–11:50

### Coffee break

11:50–12:15

### The CMS Tracker End-Caps Integration

**Speaker**

Gaëlle Boudoul

12:15–12:40

### Status and prospects of the LHCb Vertex Locator

**Speaker**

Martin Van Beuzekom

12:40–13:05

### LHCb VERtex LOCator (VELO) Module Production and Performance

**Speaker**

Dr Anthony Affolder

13:05
