

Session Program

6-9 Jun 2006

2nd HERA - LHC workshop 2006

Heavy quarks (charm and beauty)

CERN

Thursday 8 June

09:00

Heavy quarks (charm and beauty)

Session | Location: CERN, council chamber B503

09:00-09:30

Measurement of beauty production at 14 TeV with ALICE

Speaker

Carlo Bombonati

09:30-10:00

Inclusive b production in CMS

Speaker

Valeri Andreev

10:00-10:30

Quarkonia detection with the ALICE muon arm and low-x PDFs

Speaker

Diego Stocco

10:30-11:00

ATLAS J/psi direct production studies

Speaker

Jony Ginzburg

11:00-11:30

coffee

12:00-12:20

Asymmetry in baryon/antibaryon production at HERA and LHC

Speaker

Olga Piskounova

12:25-12:45

Tests of CP symmetry and time reversal invariance with Λ_b decays into Λ vector meson

Speaker

Ziad Jean Ajaltouni

13:30
