

NA3 activity report

April 2006 - Sept 2007
Prof. David Horn
TAU

<http://iag.iucc.ac.il>

- **Grid Induction Hands on Workshop for the Biomedical Community. Tel Aviv, Israel.**

Sept 19, 2006 : <http://iaq.iucc.ac.il/workshop4.php>

14 participants, all from Israel.

- **Grid Induction for Computational Biology – satellite workshop of the ECCB conference, Eilat, Israel. Jan 23, 2007. Joint event of EUMEDGRID and EGEE-II. 18 people from 5 countries participated.**

<http://iaq.iucc.ac.il/workshop5.php>

- **Hands on Workshop on Grid and Condor for Bioinformatics. Tel Aviv University Sep 17, 2007. 20 graduate students participated.**

- **Software demo in ECCB 2006 (Jan 22, 2007): Grid Computing for Bioinformatics.**
Presented in front of an international audience of about 80 scientists.
http://www.eccb06.org/new_pages/program/accepted_sw.html#13

- **Personal induction and support for users in Israel from various scientific fields (biology, physics, computer science)**
- **Find solutions for users transferring their special applications to the grid**

Team:

Eddie Aronovich, TAU

Assaf Gottlieb, TAU

Additional challenges

- **Assimilation is needed after induction**
- **Library of examples from different domains**
- **Solution for short tasks (not thru RB)**
- **Resources (like DB) are not standard in VOs**
- **User's registration process is too long (and not online):**
 - UI user
 - Certificate
 - Registration for a VO
