08:30

WP4

Session | **Location:** Buffon Building, Amphi Buffon | **Convener:** Dr Elena Wildner

08:30–08:50 **Low-Q ion production, 6He and 18Ne measurements and perspectives**

Speakers

Tania Manuela De Melo Mendonca, Thierry Stora

08:50–09:05

High-Q ion production, status of Production Ring for 8B and 8Li , optimization for neutrino flux

Speaker

Dr Elena Wildner

09:05–09:25

Cross-section measurements of 8Li and 8B

Speaker

Marco Cinausero

09:25–09:45

Collection Device

Speaker

Semen Mitrofanov

09:45–10:05

Ion source

Speaker

Thierry Lamy

10:05–10:30

Decay Ring: lattice, stability, RF

Speaker

Dr Antoine Chance

10:30
