

## **Session Program**

**18-22 Mar 2013**

# **ICFA Mini-Workshop on Beam-Beam Effects in Hadron Colliders (BB2013)**

## ***Beam-beam Compensation II***

CERN, 6/2-024 - BE Auditorium Meyrin

## Wednesday 20 March

10:30

### Beam-beam Compensation II

**Session** | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin | **Convener:** Dr Wolfram Fischer

10:30–11:00

#### Coherent beam-beam effects in experiments and implications for head-on compensation

**Speaker**

Simon White

11:00–11:30

#### Long-range experiments in RHIC

**Speaker**

Rama Calaga

11:30–11:50

#### Simulation of long range compensation in the LHC with a wire

**Speaker**

Tatiana Libera Rijoff

11:50–12:10

#### 10 years of wire excitation experiments in the CERN SPS

**Speaker**

Dr Frank Zimmermann

12:10–12:30

#### DAFNE experience with compensating wires

**Speaker**

Catia Milardi

12:30
