

Session Program

18-22 Mar 2013

ICFA Mini-Workshop on Beam-Beam Effects in Hadron Colliders (BB2013)

Operational aspects of beam-beam effects II

CERN, 6/2-024 - BE Auditorium Meyrin

Wednesday 20 March

16:30

Operational aspects of beam-beam effects II

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin | **Convener:** Dr Giulia Papotti

16:30-17:00

Consequences of missing collisions - beam stability and Landau damping

Speaker

Xavier Buffat

17:00-17:30

Luminosity measurements and optimization - consequences for beam-beam effects

Speaker

Witold Kozanecki

17:30-17:50

Observations from LHC operation

Speaker

Michi Hostettler

18:00
