

ICFA Mini-Workshop on Beam-Beam Effects in Hadron Colliders (BB2013)

Wednesday, 20 March 2013

Operational aspects of beam-beam effects I - 6/2-024 - BE Auditorium Meyrin (14:00 - 16:00)

-Conveners: Giulia Papotti

time	[id] title	presenter
14:00	[60] Needs and requirements from the LHC physics experiments	JACOBSSON, Richard
14:30	[61] Luminosity levelling techniques: implications for beam-beam interactions	MURATORI, Bruno Dr PIELONI, Tatiana
15:00	[62] Implementation and experience with luminosity levelling with offset beams	JACQUET, Delphine
15:30	[63] Diagnostics needs for beam-beam studies and optimization	GIACHINO, Rossano
