

Session Program

18-22 Mar 2013

ICFA Mini-Workshop on Beam-Beam Effects in Hadron Colliders (BB2013)

Studies for future projects

CERN, 6/2-024 - BE Auditorium Meyrin

Thursday 21 March

14:00

Studies for future projects

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin | **Convener:** Alexander Valishev

14:00–14:30

Beam-beam studies for the HL-LHC

Speaker

Alexander Valishev

14:30–15:00

Simulation of beam-beam induced emittance growth in the HL-LHC with crab cavities

Speaker

Stefan Paret

15:00–15:30

Circular Modes

Speaker

Alexey Burov

15:30–16:00

Beam-beam effects in the LHeC

Speaker

Daniel Schulte

16:00

16:30

Studies for future projects

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin | **Convener:** Alexander Valishev

16:30–17:00

Beam-beam predictions for SuperKEKB and Large Crossing Angles

Speaker

kazuhito ohmi

17:00–17:30

Beam-beam study of the ERL based e-RHIC

Speaker

Dr Yue Hao

18:00
