

Session Program

17-18 Jul 2012

Tools for precision and discovery physics with top quarks

Theoretical issues in the top mass measurements

CERN

Council Chamber (Tue Afternoon) Filtration Plant (Wednesday sessions)

Wednesday 18 July

11:30

Theoretical issues in the top mass measurements

Session | **Location:** CERN, 222/R-001

11:30–12:00

New techniques to determine m_{top}

Speakers

Peter Uwer, Peter Uwer

13:00

12:00–12:45

Disussion: Issues in the definition ot m_{top} from LHC observables
