

# **2012 Symposium on the Progress of the Gaseous Detectors**

**Thursday 14 June 2012 - Friday 15 June 2012**

**Aristotle University of Thessaloniki**

## **Scientific Programme**

- \* Development of Advance proportional counters**
- \* Micromegas detectors and applications**
- \* Ambient neutrons detection**
- \* Sub-keV X rays and particle detection**
- \* Neutrino coherent scattering cross section experimental measurements**
- \* Supernova neutrino and reactor neutrino**
