

Session Program

19-21 Apr 2006

SpacePart '06

Fundamental Physics and gravitation (cont.)

Ruxin Conf. Center, Beihang University, Beijing
Beijing, China

Friday 21 April

11:10

Fundamental Physics and gravitation (cont.)

Session | **Location:** Ruxin Conf. Center, Beihang University, Beijing, Beijing, China

11:10-11:35

Atom interferometers and optical clocks: new quantum sensors for fundamental Physics and applications to Earth laboratories and in space.

Speaker

Dr G. Tino

11:35-11:50

AXEL experiment in space to search for spin-coupling interactions

Speaker

Dr Dong Yao

11:50-12:10

INAF

Speaker

Prof. Piero Benvenuti

12:20
