

Tipp 2014 - Third International Conference on Technology and Instrumentation in Particle Physics

Wednesday, June 4, 2014

V.a Industrial Liaisons: Session 1 - Keurzaal (4:20 PM - 6:20 PM)

-Conveners: Hans Priem

time	[id] title	presenter
4:20 PM	M16] Bridging the gap between science and society	Dr BOSMA, Marten
4:40 PM	M102] Genetic multiplexing for particle detectors	PROCUREUR, Sebastien
5:00 PM	M99] Development of a Small Form Factor (6cm x 6cm) Picosecond Photodetector as a Path Towards the Commercialization of 20cm x 20cm Large Area Pico-second Photodetector Devices with Incom Inc.	BYRUM, Karen
5:20 PM	M431] High-gradient accelerator technology	Dr JANSSEN, Xander
5:40 PM	M16] Development of a Drift Chamber Detector for Large Area Applications of Muon Tomography	Dr STEER, Chris
