

Tipp 2014 - Third International Conference on Technology and Instrumentation in Particle Physics

Wednesday 4 June 2014

IV.d Photonics: Session 1 - Berlagezaal (11:00 - 12:40)

-Conveners: Jeroen Koelemeij

time	[id] title	presenter
11:00	[15] Laboratory tests for Diode-Laser based Calibration Systems for Fast Time-of-Flight Systems	Dr BONESINI, Maurizio
11:20	[133] Calibration System with Notched Fibres	SMOLIK, Jan
11:40	[152] High-precision fiber-optical timing distribution systems over large distances and their application to astroparticle physics facilities	BALZER, Arnim
12:00	[258] Phase camera development for gravitational wave detectors	AGATSUMA, Kazuhiro
12:20	[419] Application Specific Photonic Integrated Circuits for High Energy Physics Applications	GAJANANA, Deepak
