

# Tipp 2014 - Third International Conference on Technology and Instrumentation in Particle Physics

## Wednesday 04 June 2014

### IV.abc Cooling & MEMS & 3D: Session 1 - Administratiezaal (16:20-18:20)

-Conveners: Jurriaan Schmitz

time	[id] title	presenter
16:20	[260] Development of Microwave Kinetic Inductance Detectors for phonon and photon detections	Dr ISHINO, Hirokazu
16:40	[14] Performance of Three Dimensional Integrated Circuits Bonded to Sensors	Dr LIPTON, Ronald
17:00	[227] InGrid: Pixelated Micromegas detectors for a pixel TPC	LUPBERGER, Michael
17:20	[388] Microfabrication Activities in the Engineering Office of the PH-DT Group at CERN	MAPELLI, Alessandro
17:40	[48] Engineering studies for the inner region of the CLIC detector concepts	DUARTE RAMOS, Fernando
18:00	[401] The Silicon Tracking System of the CBM experiment at FAIR: detector development and system integration	Dr LYMANETS, Anton
