

Multi partonic interactions at LHC

Wednesday, 17 October 2012

Low-x physics and MPIs - Melamed hall (09:00 - 10:30)

-Conveners: Halina Abramowicz

time	[id] title	presenter
09:00	[25] Single and double parton distributions in the double logarithmic approximation	KUTAK, Krzysztof
09:30	[26] Correlation functions within BFKL approximation	LIPATOV, Lev
10:00	[27] Survival probability and MPIs	GOTSMAN, Errol

Low-x physics and MPIs - Melamed hall (11:00 - 12:30)

-Conveners: Halina Abramowicz

time	[id] title	presenter
11:00	[28] Ideas about MPI and low-x physics	FRANKFURT, Leonid
11:30	[29] MPI in the small x processes	HAUTMANN, Francesco
12:00	[30] Mueller-Navalet jets at LHC: a pure (NLL) BFKL scenario? ...What else? DGLAP? MPI?	WALLON, Samuel

Low-x physics and MPIs - Melamed hall (14:00 - 14:30)

-Conveners: Leonid Frankfurt

time	[id] title	presenter
14:00	[36] Unintegrated PDFs	JUNG, Hannes
