

CERN Colloquium

SPEAKER: Prof. Cecilia Jarlskog (Lund University)
TITLE: **TWO NOBEL STORIES : Marie Curie 2 - Ernest Rutherford 1**
DATE: Thu 05/07/2012 16:30
PLACE: Council Chamber

ABSTRACT

Two important historical happenings 100 + 1 years ago were the discovery of the atomic nucleus by Rutherford and the award of the Nobel Prize in chemistry to Marie Curie.

Based largely on material in Nobel archives, I will discuss these events and the question of why Curie got two Prizes but the discovery of the atomic nucleus was not honored.

Organised by: Ignatios Antoniadis/PH-TH.....**Tea
and coffee will be served at 16h00**
