

ATLAS T1/T2/T3 Jamboree

Introduction

CERN, December 10, 2012

Alexei Klimentov

Brookhaven National Lab

This week workshops

- Mon – Tue Dec 10-11 : T1/T2/T3 Jamboree
- Tue Dec 11 afternoon : DPHEP Implementation Board
 - <https://indico.cern.ch/conferenceDisplay.py?confId=219307>
- Wed Dec 12 : Grid Deployment Board
 - <http://indico.cern.ch/conferenceDisplay.py?confId=155075>
- Thu-Fri Dec 13-14 : LHCONE Point-to-Point Service Workshop
 - <http://indico.cern.ch/conferenceDisplay.py?confId=215393>

T1/T2/T3 Jamboree

- Monday December 10
 - morning : Plenary session I
 - ATLAS talks
 - Physics Coordination
 - Data Preparation
 - International Computing Board
 - Tier-1 center in Moscow (status and plans)
 - XROOTD
 - Afternoon : Plenary session II
 - Rucio (and Data Management and Handling)
 - Cloud computing evolution
 - Grid middleware matters
 - *EVENING : DINNER IN MONGOLIAN RESTAURANT*
- Tuesday December 11
 - Morning
 - Splinter meetings and discussions
 - Afternoon
 - Networking
 - Databases
 - LS I 2013/14 operations
 - Reports from working groups and summary

Main topics to be discussed

- Distributed Computing Operations Model in 2013/14
 - RnDs : Cloud computing & XROOTD
 - Rucio : storage migration plan

 - *Production System :*
 - *Task Request I/F, Dynamic Job Definition,..*
 - *DeFT, JEDI, upper-level I/F*
- It is the main topic of Distributed Computing TIM in May 2013*
