

Session Program

30 August 2012 to 2 September 2012

First Mediterranean Thematic Workshop on Advanced Molecular Brain Imaging with Compact High Performance MRI-Compatible PET and SPECT Imagers - Potential for a Paradigm Shift

Advanced tools and techniques for brain imaging

Giardini di Naxos (Taormina, Sicily)

Sunday 2 September

08:45

Advanced tools and techniques for brain imaging

Session | **Location:** Giardini di Naxos (Taormina, Sicily)

08:45–09:10

Dedicated PET-MRI-fMRI detectors for brain

Speaker

Dr H. Herzog

09:10–09:35

Molecular Imaging of therapeutic cells: pre-clinical and clinical studies

Speaker

G. Marfia

09:35–10:00

Dedicated innovative SPECT detectors for brain

Speaker

Dr B. Tsui

10:00–10:25

Dedicated innovative PET detectors for brain

Speaker

S. Majewski

10:25–10:55

Coffee break

10:55–11:20

High Resolution Brain SPECT Imaging Technologies and Clinical Performances

Speaker

Dr B. Kari

11:30
